Disclosures are one of the most important areas to understand in real estate today. All sellers are required to disclose material facts and as a real estate agent you have to have thorough knowledge of the California real estate disclosures.

In the "All About Disclosures" course you will review approximately 30 disclosure requirements that are typically seen in a residential 1-4 transaction item by item. Take this course to help better serve your buyers and sellers along with protecting yourself from personal liability.

Understand how to complete disclosures.

- Learn how to read and use the various disclosure charts.
- Review some important and recent cases affecting disclosures.
- Discover local ordinance disclosure rules.
- Review miscellaneous issues such as disclosure of repairs, death on the property, and illegal and contractual disclosures.
